CHIROPRACTIC EQUIPMENT CATALOG

ADJUSTING TO YOUR NEEDS.

WHY CHOOSE PHS CHIROPRACTIC?

Since our launch in 2009, PHS Chiropractic, a brand of Pivotal Health Solutions, has become an industry leader in beautifully designed, configurable chiropractic tables, and accessories. Our products are built to help practices succeed. We are constantly moving forward and improving, striving to deliver unmatched value to our customers in product, service, and performance.

QUALITY • DIVERSITY • LEAD TIME

Our wide range of products are continually being updated to adapt to emerging needs to better serve the chiropractic community. Most orders ship within 4 weeks!

CREATE YOUR
PIVOTAL
PRACTICE

What is a Pivotal Practice?

A Pivotal Practice incorporates a multi-disciplinary approach to related areas of health care such as chiropractic, massage and physical therapy using a variety of PHS products and equipment. A diverse course of treatment options opens your practice to greater opportunities and allows you to successfully treat a wider selection of conditions and patients adding value to your practice.

See page 20 for more information on Creating Your Pivotal Practice

2020 NEW PRODUCTS

As your practice grows and evolves, so do our products. We strive to stand out and foster innovative thinking to solve problems and push the creative barriers of product selection, performance, and price. We want you to succeed and that is why we design and build products that give your practice value. By continually improving our product lines, we create more opportunities for our customers and for ourselves.

ErgoStyle™ ES2000 GEN II

The ErgoStyle™ ES2000 Gen II takes the table you know one step further. With smooth electric elevation and easy upgrades, you can customize your table to your practice setting. Our patented ErgoStyle drop elevates across the entire cushion, rather than a single pin, allowing for improved accuracy and a smoother adjustment with less force-for less stress on you and your patient. It's also fully modular, allowing for easy modifications and upgrades in the field, both now or later as your techniques and practice grow.

NOTE: International (240V) option available

ErgoStyle™ FX

The ErgoStyle™ FX offers full, ultra-smooth counterbalanced flexion, distraction or circumduction, effortlessly meeting the core needs of your practice. Manual flexion/distraction is built right in, with infinitely variable electric spring tension so you can move the caudal section in any direction with just the touch of a finger. For added flexibility, the table also quietly elevates from its lowest height of 20" to its full height of 32". The fully modular design allows for upgrades now or in the future, including manual drops, auto-cocking drops, auto flexion, various headpieces, and many other options.

The ErgoStyle™ HYLO reinvents today's adjusting table with numerous upgradeable features. Our base table expands your practice with its advanced tilt mechanism, featuring a controlled safety system and constant tilt speed. Upgrade your table by adding manual drops, auto-cocking drops, various headpieces, and many other options.

"Having this table
has helped me
grow my practice..."

[It gives] me the flexibility to treat acute and elderly patients without having them 'climb' onto a table. As a result of seeing these types of patients they have commented how much they appreciate me having this option for them. I would suggest every office offer a HYLO table from Pivotal Health."

ErgoWave Roller Massage Table

ErgoWave Roller Massage Table EW9080

Standard Features:

- Load Capacity: 350 lbs.
- Overall dimensions: 78"L x 25"W x 24"H
- Quick height adjustments: Gas spring makes roller height adjustments quick and easy
- Ultra quiet operation: high-quality motor for nearly silent operation without disturbing vibrations
- Built-in storage shelf
- Welded steel frame for stability
- 30-Minute timer
- 3" Roller height adjustment

The ErgoWave Roller Massage Table covers all areas of the spine isolating the lumbar, thoracic or cervical regions. Three, independent rollers repeat every 13 seconds delivering a unique wave action that travels up the spine. A powerful, yet nearly silent motor never disturbs your patient's relaxation and you can add a leg bolster or head pillow for added comfort.

What people ARE SAYING...

"I currently have been treating patients on two **ErgoStyle FX** chiropractic tables over the past 10 years...The manual drops are smooth, and I have had no serious mechanical issues with these tables. My techniques are diversified, Gonstead and Thompson. I would definitely recommend the **ErgoStyle FX**."

Jeff Alexander, D.C.

Active Chiropractic

"I have been very pleased with the Apollo Cold Laser by Pivotal Health Solutions. My staff is trained to perform the treatment sessions while I am able to attend to other patients. It has been a great addition to the types of care offered in my office. The support team at Pivotal Health Solutions has likewise been pleasant and professional to work with."

Dr. Mary Ann Bough

Hoosier Family Chiropractic

DOC Decompression TABLE

DOC Decompression E9011-B
120V Targeting of Axial Rotation and Lateral Flexion

DOC Decompression E9014-B
240V Targeting of Axial Rotation and Lateral Flexion

Standard Features:

- Lifting Capacity: 350 lbs.
- Overall Dimensions: 30"W x 77"L x 21"H
- Electric Elevation Range: 21-29"
- Lateral Flexion Positioning and Axial Rotation
- Cervical capture headpiece
- Traction belting system enhances restraint for optimal decompression
- User-defined treatment hold and relax times
- Real-time digital treatment tracking
- Speed control
- Pre-programmed lumbar and cervical decompression protocols
- Digital Command Center includes:
 - Specific vertebral targeting
 - Separate lumbar and cervical traction/decompression programming
 - Continuous readout and graphing of treatment parameters
 - Interactive color display
 - Reference library - including patient setup and training materials
- ADA Compliant

The **DOC Decompression Table** takes your chiropractic practice to the next level with its unique design and impressive list of standard features. The state-of-the-art digital command center controls specific vertebral targeting, including axial rotation and lateral flexion; correctly positions patients in antalgic posture; offers separate lumbar and cervical decompression programming; and delivers continuous readout and graphing of treatment protocols. The digital command center also controls table elevation and rear flexion, all at the push of a button. Patients may be treated in supine or prone positions and from various angles.

“Adding this treatment to my office was essential.

We have been using the Spinal Decompression table for the past 9 months and we couldn't be happier. I'm very happy with our table and have seen awesome results and highly recommend you look into the Spinal Decompression table.”

- Dr. Alexander Bohatiuk, Bear Chiropractic Center

The DOC Decompression Table offers optimal patient comfort and safety.

**Trusted
all over
the world**

- FDA Cleared
- EU Certified
- Licensed in Canada

www.PHSChiropractic.com

Supine Flexion

Great for patients suffering from conditions where flexion improves symptoms.

Supine Extension

The ideal position for older or heavier patients who can't tolerate prone decompression but benefit from extension with disc herniations or disc bulging.

Prone Flexion

The ideal patient position for patients suffering from symptoms of Spinal Stenosis.

Prone Extension

The ideal patient position for younger patients who can tolerate prone positioning for symptoms of disc herniations and disc bulges.

Lateral Flexion

Laterally flexing away from a disc herniation can dramatically help improve disc herniation outcomes. It is also effective for symptoms of analgic patients.

Rotation

Effective patient positioning for analgic patients.

iTrac® Spine REMODELING SYSTEM

iTrac® Spine
Remodeling System T9000
120V iTrac® Spine Remodeling System Computer,
modality cart and Chin Strap

Standard Features:

- Table Dimensions: 23"W x 48"L x 43" H
- Cart Dimensions: 24"W x 18"D x 38"H
- Precise Computer Control results in consistent, repeatable treatments
- Digital Data Processing and file storage allows instant development, administration and viewing of patient treatment plans.
- State-of-the-art ergonomic design enhances your modern office environment
- Preloaded 15" laptop with a direct ethernet connection to your iTrac® unit
- Effective patient management software that allows you to record and monitor patient progress
- Valuable report tool that allows you to print professional treatment recommendation and progress reports
- Variable rate progressive traction specifically designed to match viscoelastic property of soft tissues, maximizes patient comfort and effectiveness of traction treatments
- ADA Compliant seat with black upholstery and deboss logo

"iTrac® has helped us take the guesswork out of challenging spinal cases."

We've simply added iTrac® Therapy sessions to patient's current treatment plans. Their progress is tracked using posture analysis software, which allows the patient to understand the relationship between their condition/symptoms, x-rays and posture."

- Dr. Luis Perez, Perez Chiropractic Center

What are the benefits of **LASER THERAPY?**

The Apollo Laser is a therapeutic, non-surgical, medical grade laser used by doctors, athletic trainers, physical therapists and chiropractors. It non-invasively and painlessly penetrates 3-5 inches deep into the body with visible light into an injured area to reduce pain and inflammation and stimulate healing.

For more than 40 years, laser has been used worldwide for the treatment of pain, wound healing and musculoskeletal problems.

STANDARD FEATURES of the Desktop Apollo Laser:

- 9"W x 11.25"D x 4.5"H
- 2 Channel desktop unit with choice of probe
- Heavy-duty construction for office and clinic environments
- Probe holders on both sides of the unit that can accommodate two probes and both right and left handed practitioners
- Elevated face for easy viewing and control
- Two timers allow you to treat 2 patients at the same time

Why **APOLLO?**

The **Portable Apollo** can be battery operated or plugged into a standard wall socket.

The **Desktop Apollo** has two channels to allow for the use of two probes.

FMST TOOLS

FMSTTOOLS

Fluid Motion Soft Tissue Tools are the soft tissue mobilization tools that can take myofascial manipulation and mobilization to the next level in your practice. The design of the two tools available enables you, the practitioner, to work over all surfaces of the body quickly and easily. The tools help reduce scar tissue problems from old injuries/surgeries and achieve greater results with pain control, joint and muscle flexibility.

FEATURES:

- Custom molded, non-slip thumb grips create maximum angular pressure without over use by the therapist.
- Ambidextrous design: no more switching through multiple tools to find the right edge or angle. Both tools are designed to be used on both sides and on every surface for increased compatibility of treatment on multiple body areas.

Leg and Shoulder Therapy (LAST) Table

Ergonomically designed, the LAST Leg & Shoulder Therapy Table with Hi-Lo Elevating Base is the first treatment/exercise table that supports bilateral training and specific anatomical positioning to achieve the desired results for both professional athletes and weekend warriors. The elevating base ensures that even athletes with limited mobility have easy access in any setting.

NEW! Aluma Elite Basic Treatment Table

The extraordinary load capacity of 650lbs. and the welded aluminum frame make the Aluma Elite Basic Treatment Table the perfect table for your office, clinic, gym, or facility. Each table comes standard with welded aluminum frame, H-brace construction, comfortable 2" high density foam cushion, and softly rounded corners.

ME2001 Bariatric Elevating Treatment Table

The ME2001 Bariatric Elevating Table is a durable, yet handsome elevating table perfect to add versatility to your practice. With a wider top, the ME2001 will give you the flexibility to work with a larger athlete without sacrificing comfort. The sleek, white powder coat steel base and the two sliding doors on each side of the table give a polished and sophisticated look while providing storage.

The height range from 24" to 36" gives patients easy access to the table at the press of the foot pedal.

Create Your Pivotal Practice: PHYSICAL THERAPY

Chiropractic and Physical Therapy work great in conjunction with each other. Adding physical therapy to your practice can expand your services, allow you to treat a wider population of people and offer a more thorough treatment experience for your patients.

Chiropractors can address joint and skeletal issues while physical therapists can strengthen and stabilize the problem areas. Together, treatments can be more effective and convenient for patients.

A Pivotal Practice is one that encompasses a variety of PHS products to be used in different areas of chiropractic as well as massage and physical therapy. Having a diverse list of treatment options opens your practice up to more opportunities and gives you the ability to successfully treat a wider selection of patients.

Learn more about how chiropractic and massage work together on page 29.

Quality Crafted Massage Equipment

A touch above the rest.

Custom Craftworks has a long standing reputation for building thoughtfully constructed, long-lasting products. The company was acquired by Pivotal Health Solutions in 2009, and has been crafting high-quality massage tables since 1986. Custom Craftworks has proven to be one of the top brands for massage and spa equipment in the industry. We constantly move forward and improve, striving to deliver unmatched value to our customers in product, service and performance.

Add your company branding and custom powder coat base colors on all Hands Free Tables!

Classic Series Pro Electric Table

Basic - ELPro
Lift Back - TELPro
Deluxe - SELPro

Table is ADA compliant
(Consult your tax professional about eligibility for a Section 44 ADA Tax Credit)

ELPro

One of our most popular lines since 2009, the Pro Electric Massage Table offers smooth, silent lift, superior craftsmanship and excellent value. The classic design also includes a dual action face rest and pillow, 3" foam, plus a standard single foot pedal for height adjustment.

Classic Series Hands Free Electric Table

The Classic Series Hands Free Electric Table allows therapists to easily control the height of the table with the hands-free dual foot bar control that is built-in along both bottom sides of the table. The easy-to-use dual foot bar control raises the table as you gently push down on it with your foot and lowers as you lift up. Because of the table's design and functionality, therapists can move freely around the table without losing contact with their client.

Create Your Pivotal Practice: MASSAGE

Most people know the benefits of chiropractic care, as well as the relaxing effects of massage therapy. But did you know that getting both regular massages and routine chiropractic adjustments can enhance your overall wellness?

That's right, many chiropractors and massage therapists work in tandem, because their treatments are so complementary.

Your muscles function through coordinated movements and timing because of messaging they receive from your nervous system, via your spinal cord. By reducing inflammation and restriction in both your muscles and your nervous system, you are allowing optimal function and communication throughout the body. That's why regular massage therapy and routine chiropractic care make the up perfect combo for wellness.

After a massage, your muscles are loosened up, which can make chiropractic treatment more effective and your pain relief last longer. In addition, the soft tissues treated with massage heal quicker once the joints are realigned. Ongoing, regular treatment with both massage and chiropractic will help keep the pain from coming back.
